## VEGETABLES SENT TO WINNIPEG SHOW

As a result of a consignment of vegetables and other products being shipped to Winnipeg this week, to be exhibited at the Land Show now running there, Mirror and district will receive some well-deserved publicity. The vegetables are a remarkably fine lot and were grown on the farm of Thos. Hider, several miles north-east of Mirror.

The shipment was packed in nine cases and consisted of the following varieties: Northwestern Dent corn, stalks eight ft. high; two ears Northwestern Dent corn; two ears of Eureka yellow corn; Connecticut field pumpkins; Mammoth King pumpkin; Royal Grant sugar beets; long red fennels; Golden Globe mangolds; long Belgian stock carrots; intermediate short stock carrots; Chantenary stock carrots; two Swedish turnips; Greyhound turnips; Sunnysquash; parsnips; Early Emma tomatoes; Savoy cabbage; red cabbage; Prize-taker's onions; Long Green cucumbers; and Havana tobacco. In the shipment was included a jar of Siberian crab apples, grown by Jas. McLaren, and a box of cement products manufactured from the Mirror Beach sand, such as bricks,

flooring tile, mantle fronts, etc. The corn was perfectly matured, and the sugar beets were very large; in fact they were of such a size, that at the Lacombe fall fair last week, the beets were thrown out of the competition as being too large for sugar beets. The cabbage was extra good and measured 20 in. across the top, and the pumpkins were 18 in. high. The sample of tobacco will come as a surprise to many, but only tends to show what can be grown in the central part of Alberta and especially in this district.

The Transcontinental Townsite Co. are making a special display for Mirror and district and the exhibition of the above mentioned vegetables and products will be of immense value in advertising, and gives a practical demonstration of just what can be grown in this section of Sunny Alberta.

H. J. Raymer, of Mirror, made the arrangements here for procuring and shipping the exhibit.

## MIRROR BOAT CLUB HAVE DISBANDED

A special general meeting of the Mirror Boat Club was held in the school house, Mirror, on Monday evening, 6th inst., and there were present Messrs Robinson, McCormack, Pringle, Higgins, La Pointe, Johnson, Gardiner, Durrant and Carmichael.

The meeting was called to order at 9.30 by President Robinson who occupied the chair. The minutes of the last monthly meeting and those of the directors' meeting on 29th Sept. were read and adopted unanimously.

The secretary then submitted to the meeting an offer which he had received from H. W. Higgins in the following terms:—

Mirror, Sept. 29th, 1913. I hereby offer to take over from the Mirror Boat Club for the purpose of a boat livery on Buffalo Lake the boat house and 15 foot skiff now owned by the club, and agree to pay One Hundred and Fifty Dollars (\$150.00) for same, as follows:—Sixty dollars cash, forty-five dollars on April 1st, 1914, and forty-five dollars on July 1st, 1914. I also agree that my contract with the club shall terminate on Sept. 30th, 1913.

(Signed) H. W. Higgins. It was then moved by Mr. McCormack and seconded by Mr. Pringle that Mr. Higgins

offer be accepted, the motion being carried without dissent.

A motion having been passed that the remaining skills belonging to the club be stored until next spring and then disposed of by public tender. W. C. McCormack generously offered to transfer the skills to his lumber shed and store them there during the winter months gratuitously, making the reservation that the skills be at club's risk. This offer was gratefully accepted.

A motion was then carried: That the boat club be disbanded as at this date and that the present directors and officers be appointed as trustees to wind up the business of the club and to apply the balance of the assets towards the expense of running an annual regatta, in event of there being no regatta in 1914 the assets to be equally divided amongst the members of the late club.

This concluded the evening's business and the meeting was adjourned.

Though the life of the Mirror Boat Club has been a short one, it is evident by the large number of boats now on the lake and the increasing popularity of this mode of recreation that its existence has been fully justified. The avowed object at its inception, in addition to popularizing the lake, was to encourage someone to establish a boat livery and bring within reach of all the opportunities of seeing and appreciating the beauties with which Buffalo Lake is surrounded. With Mr. Higgins' advent this object has been achieved and in order to give him a fair chance the club as at present constituted, has been disbanded, with the hope that next year it may be possible to re-organize upon a somewhat different basis.

## SCHOOL READY BY NOVEMBER 15TH

Mirror's new public school is beginning to assume a finished appearance, although considerable work has yet to be done to the interior. The building presents a solid and substantial appearance and gives one the impression that it will last for ages.

The lathing of the two lower rooms is completed and work on the two upper rooms is in progress. The plastering will be started next week and it will take about five days to complete this part of the work. Johnson & Cugin, of Camrose, who have the contract for the heating, are busy installing the pipes for ventilation, etc.

Contractor Berry states that the entire building will be fully completed by November 15th, which is about four weeks sooner than the contract calls for. No difficulty has been experienced in getting material, and at no time has the work been held up for the want of material. The school when finished will rest in the neighborhood of \$17,000.

It is but seldom that a building is constructed in the time allotted in the contracts, and for Mr. Berry to perform this feat in addition to having a month to spare, is indeed a creditable showing.

## COUNCIL MEETING

The Village Council met in regular monthly session last Monday evening; all members present.

The following accounts were passed and ordered to be paid. Ed. Gaster, auditing, \$ 5.00 Fred Downswell, work on sidewalk, 86.00 W. J. Good, printing, 8.75 Frank Tullock, grading, 128.20 Trustees Mirror S. D., 250.00 Postmaster, 10.00

The application of the trustees of the Mirror School District for the school taxes, collected up to Oct. 6th, was tabled for further consideration.

It was decided to continue the grading on Route one and Arthur Street, so that the roads will be passable during the wet weather.

Council adjourned.

### NEW G.T.P. DEPOT FOR REGINA

Regina is shortly to have a  
splendid new railway station.  
The building, which will occupy  
an area of about 8,000 square  
feet, is to be erected at the  
corner of Albert and Sixteenth  
Street by the Grand Trunk  
Pacific Ry. Co., and will be two  
storeys in height, the lower part  
being devoted exclusively to the  
service of the travelling  
public and the upper part to be  
divided into offices for the use  
of the railway officials. The  
Main waiting room, however,  
will extend through the upper  
storeys of the building, thus  
having the advantages of great  
height, which, combined with  
its ample dimensions and dig-  
nified design, will make it a  
very impressive room indeed.  
As one approaches the station  
he cannot fail to be impressed  
by the simple dignity of the  
design and its suitability to its  
surroundings and to its purpose.  
It will be built of buff brick and  
linestone trimmings, through-  
out, with large windows and  
generous entrance steps and  
the sidewalks, to protect the  
patrons from the weather. The  
front of the building will be  
surmounted by an ornamental  
clock, large enough to be seen  
from a great distance, so that  
one approaching the station  
will be in no uncertainty as to  
the correct time.

Entering the large doors of  
the front entrance he will find  
himself in a vestibule of a good-  
ly size in itself, with walls and  
floor of marble and ceiling of  
ornamental plaster work. From  
this vestibule one enters direct-  
ly into the large main waiting-  
room, and is compelled to pause  
for a moment to admire its  
beauty as well as its perfect  
proportions. The walls of this  
room will be entirely of Can-  
stone, its floors of different col-  
ored marbles, and its ceiling of  
plaster, beautifully decorated.  
All around the room is a gallery  
with a handsome bronze rail in  
front, from which open the  
various offices in the second  
story, and from which also may  
be had a splendid view of the  
entire waiting room with its  
seats and aisles filled with peo-  
ple.

As one enters the main wait-  
ing room from the street he  
finds on the right the commodi-  
ous restaurant and ladies' wait-  
ing and retiring rooms. On the  
left he finds the men's waiting  
room, main stair to office  
above, elevators, shoe shine  
parlor and second-class waiting  
room. Directly ahead, on  
either side of the main waiting

room he will find the ticket and  
paved offices, conveniently lo-  
cated on each side of the exit to  
the train platforms. On each  
side of the main entrance vesti-  
bule are two comfortable  
benches, where one may wait  
quietly for a friend, or train,  
away from the hurry and bustle  
of the main waiting room and  
yet have a full view of it. The  
above to the left will also con-  
tain the news and cigar stand,  
while that on the right will  
contain three telephone  
booths, already accessible from  
the main waiting room.

Outside of the station proper,  
and opening directly off the  
concourse, the traveller will  
find the baggage room conveni-  
ently located for both incoming  
and outgoing baggage.

Judging from the plans, the  
new station will be one of the  
most conveniently arranged as  
well as one of the most com-  
pletely equipped stations in  
Canada, and one of which Regi-  
na may well be proud. The  
Architects are Messrs Ross &  
McDonald, of Montreal, Toronto  
and Winnipeg.

### Travelling Libraries

The Department of Exten-  
sion of the University of Al-  
berta has inaugurated a travel-  
ling library scheme for the  
benefit of communities without  
public library privileges. Lib-  
raries are made up in units of  
thirty books, packed in strong  
hinged cases, to be shipped by  
freight to the points where  
they may be required. No  
charge is made for the use of  
books except the payment of  
carriage charges, which are  
very light. Full particulars  
and application forms will be  
furnished upon application to  
the Department of Extension,  
University of Alberta.

## ADVERTISING THAT PAYS

Advertising is a receipt for planting one dollar top of cotton next to pure reading and having two dollars handed back into change. It is the only form of notoriety paying a dividend which doesn't have to be explained to the wife of the advertiser.

There are two kinds of advertising, continuous and jump spark. The continuous advertiser is one who never lags to carry the 1913 models of spring suits into the 1914 clearance sales and unload them at the price of the buttons and lining. The only objection to this form of advertising is that it makes it necessary to hire more clerks and engage more floor space.

The jump spark advertiser is one who jumps in at Easter and Christmas time and makes a bang which lasts him the rest of the year. This has tendency to keep down the pay roll and prevent anybody on aforesaid pay roll from overworking. If more people would advertise by fits and starts, there would be more newspapers offered even in exchange for an equity in a second hand gramophone. Consistent advertising is the best tonic for a business that is suffering from general debility of the cashbook. Nothing will put new life and hope in the day's receipts quicker than a half-page advertisement crowded full of real bargains and 24 point prices.

Circular advertising is an expensive substitute for printers ink which gets as far as the front porch and then dies a natural death. It is better than no advertising at all, however, and may lead to a resolve to try the real article.

## SCOTLAND BY BOB WATSON

Scotland is a braw wee land on the north of England; it has water nearly all round it, and whiskey over a large part of it.

Gold has at times been discovered in certain districts, as well as in pockets of certain natives, but in both cases it has been found difficult to work. The best known exports of Scotland are Hatter and Scotch whiskey, though sufficient of the latter is retained in the country to satisfy the demands of home consumption.

The chief import in recent years is Winston Churchill.

The national dress of Scotland is the kilt, which is a kind of a short petticoat. In patterns it resembles a cashmere, though in cold weather the wearers

finds it more like a draught board. It is believed to have been originally invented because the aborigines were unable to get trousers big enough to get their feet through.

The bagpipes provide the chief music of the country. It is a wind instrument, which is said, when blown to produce a tune. On many occasions in the history of war, Scotch regiments have marched to death, listening to the strains of the bagpipes, though it is not known whether their willingness to meet the foe was inspired by their desire to escape from the latter.

Scotland has produced many well-known men, among them being Robt. Burns, believed to have been a poet. It is usually denied that he was born in Inverness. His most famous poems are "Scots wha Hae" and "Stop yer tickling Joke."

In Scotland for a couple to declare themselves man and wife in the presence of witnesses is tantamount to marriage, though there is often a tendency in many quarters to dispense with the witnesses.

The chief national characteristic is reckless expenditure.

The population is about four and a half millions, including Mr. Andrew Carnegie. It has a peculiar language of its own, and if one can pronounce it coherently, it is an infallible test of sobriety. It possesses considerable mineral wealth, but very little of it finds its way out of the country.—Ex.

## A PROTEST

Editor of THE MIRROR JOURNAL:—Dear Sir,—Will you allow me space in your valuable paper to express my views as a non-resident property owner in regard to the rate of taxation, 28 mills, levied by your Council. I presume the town council has done quite a lot of improving, in regard to streets and sidewalks, but sir, I cannot conceive of any town of the size of Mirror having a desperate need of such a large rate to justify a rate of 28 mills, if common, ordinary intelligence had been exercised by the town councilors in financing the affairs of Mirror. Yours truly,

J. A. DEPREZ, Greenfell, Sask., Oct. 13, 1913.

## A True Fish Story

While at Mirror last week Maxwell Cook enjoyed some of the fine fishing on Buffalo Lake and brought home a big one in the shape of a thirteen pound pike. The fish measured thirty-seven inches in length and was a beauty.—Wainwright Star.

## Former Mirrorites On Record Run

(Wainwright Star)  
"On Thursday morning, Sept. 25th, the Prairie Express between Biggar and Wainwright, train No. 3, made a record run. 'Tom' Modeland, who was at the throttle, started from Biggar one hour late, on account of delays east. Three hours and forty minutes after leaving Biggar, the train, containing five cars, arrived at the local depot. Three stops were made and a distance of 142 miles

travelled. The crew was as follows: Conductor, W. Walker; brakeman, D. Evans; engineer, T. N. Modeland; fireman, Don Fraser; engine, 628. Forty minutes was made on the schedule, the train arriving here twenty minutes late.

The train made a run of 97 miles for water. No. 1 makes the same run in five hours. Conductor Walker and Brakeman Evans, referred to, are well known to Mirror people, having been in charge of the G. T. P. passenger train between Mirror and Edmonton for over a year, before they were transferred to the main line.

The Mirror Library Club will open its public reading room and library to the public with a reception, Friday afternoon, Oct. 10, from 3 to 6 p.m. and in the evening from 8 to 10 p.m. Lunch will be served and all are cordially welcome.

A fine line of private Greeting Cards at THE JOURNAL office. Call and look them over.
